

Norwegian company specializing in new intelligent power distribution cabinets

Overview

Elcor develops and produces distribution cabinets that ensure safe, stable, and regulation-compliant power in complex industrial settings. Whether used on offshore platforms, marine vessels, or in sectors such as energy, wind power, hydropower, aquaculture, infrastructure, and construction –. At Nordcab, we design and manufacture smart electrical cabinet systems that shape the future of industrial infrastructure. Rooted in Nordic precision and driven by innovation, we deliver solutions that combine functionality, connectivity, and design — built to meet the challenges of tomorrow's. We produce low-voltage switchgears for power distribution and control with high-quality, and every unit is tailored to satisfy the needs of the customer. All our cabinets are FI-certified. Reimax is manufacturing automation cabinets, electrical distribution cabinets, KNX cabinets, as well as. We customize all distribution boards according to client specifications. We can deliver the following:

System voltages: Shutdown and monitoring: The company, WE Energy AS, specializes in electrical installations and automation, particularly for the oil and energy sectors. From complex automation and secure power to robust panels, we tailor every solution to your unique sector demands.
