AI Overview

To obtain an original industrial switch price quote, contact the manufacturer or authorized distributor with your specifications, including customization, quantity, and interface requirements.

How to Request a Quote

1. OEM Manufacturers: Companies like CTI Electronics provide custom OEM industrial switches and offer consultative support to select the right manufacturing options. You can request a quote by specifying your digital interface standard, desired manufacturing options, and application requirements, either via their inquiry form or by calling their technical staff directly (CTI Electronics) . 2. Industrial Ethernet Switch Manufacturers: Manufacturers such as Maisvch offer fully customizable OEM/ODM solutions for rugged industrial switches. They provide flexible minimum order quantities (typically 100–500 units for standard OEM branding), custom port configurations, mounting options, and firmware development. Contacting their engineering team allows you to receive a tailored price quote based on your specifications, lead time, and customization level . 3. Authorized Distributors: Distributors like Mouser Electronics and Newark provide pricing for standard industrial switches from multiple manufacturers. You can filter by type, quantity, and features to get a unit price estimate. Some distributors also provide same-day shipping and technical datasheets to assist in selecting the right switch for your application .
