

PDU power distribution unit 1U three-year warranty

Overview

The PDU41005 comes with a three-year limited warranty that covers defects in materials and workmanship in the product under normal use and conditions within three years of the purchase date. This product guide provides essential presales information to understand the 1U PDUs and their key features, specifications, and compatibility. This guide is intended for technical specialists, sales specialists, sales engineers, IT architects, and other IT professionals who want to learn more. The PDU41001 comes with configurable mounting brackets allowing the PDU to be configured as 0U (vertical, under counter, and wall mount), 1U (horizontal, vertical, under counter, and wall mount), and 2U (horizontal and wall mount). Can this unit receive automatic event notifications?

Yes, the. These space efficient and power dense PDUs were co-designed by Vertiv and Lenovo and come in the following 1U designs available to meet the requirements of your most power-demanding systems: The outlets (receptacles) on the PDUs give administrators the ability to remotely turn on, turn off, or. The CyberPower PDU41004, a 1U rackmount switched power distribution unit (PDU), provides 100-240V 15A output via 8 IEC-320 C13 receptacles from a single IEC-320 C14 input power plug. It distributes power to 8 IEC-320 C13 receptacles from a single IEC-320 C20 plug with unfiltered electrical pass-through. The switched outlet receptacles can be managed. The PE6108 eco PDU is intelligent PDU s that contains 8 AC outlets and is available in various IEC or NEMA socket configurations. It provides secure, centralized, intelligent, power management (power on, off, cycle) of data center IT equipment (servers, storage systems, KVM switches, network.
