

Power pole supports optical cable

Overview

A Fiber Hook Pole Bracket is a hardware component used to securely mount and organize fiber optic cables on utility poles. It ensures the cables are properly supported, preventing sagging and damage, and maintains optimal signal transmission quality. The design provides a 1-5/8" clearance from the surface of the pole to the cable and 3-3/4" clamping surface length. Clamp Body is threaded for 5/8" - 11 UNC bolt. Fiber in a duct solutions have a major aesthetic. © 2025 Preformed Line Products.
