

Price List for Industrial Rack Switches

AI Overview

Industrial rackmount Ethernet switches typically range from \$300 to over \$3,000 depending on features, port count, and industrial certifications.

Price Ranges and Factors

Industrial rackmount switches vary widely in price based on several factors:

- **Port Count and Speed:** Basic 8–16 port Gigabit switches start around \$300–\$500, while high-density 24–48 port switches with 10G uplinks can exceed \$2,000–\$3,000 .
- **Management Features:** Unmanaged switches are generally cheaper, whereas managed switches with Layer 2/Layer 3 routing, VLAN support, and redundancy features cost more .
- **PoE Capability:** Switches that provide Power over Ethernet (PoE) for devices like cameras or sensors add to the cost. PoE-enabled industrial switches can range from \$500 to \$2,500 depending on power budget and port count .
- **Industrial Certifications and Environmental Ratings:** Switches designed for harsh environments (temperature extremes, vibration, rail or factory certifications like EN 50155) are priced higher due to ruggedized construction .
- **Brand and Support:** Established industrial networking brands like Moxa, Westermo, and FS often command premium pricing due to reliability, warranty, and technical support .

Vendor Examples

- **Moxa:** Offers a wide range of industrial Ethernet switches including rackmount mo...
