

# Price List for Small Network Low-Voltage Cabinets

## AI Overview

A small network low-voltage cabinet typically costs between \$100 and \$500, depending on size, features, and mounting type.

### Price Range

For basic wall-mounted cabinets suitable for home offices or small networking setups, prices generally start around \$100 to \$200. These units are compact (6U to 12U), ideal for mounting routers, switches, and patch panels, and often include simple lockable doors or tempered glass panels for security. For slightly larger or more feature-rich cabinets, including floor-standing or ventilated models with enhanced security, cable management, and additional accessories, prices can range from \$300 to \$500. Specialized or outdoor low-voltage cabinets with weatherproofing, higher IP ratings, or advanced monitoring can exceed \$1,000, but these are typically used in commercial or industrial environments.

### Factors Affecting Cost

- **Size and Capacity:** Larger cabinets with more rack units (U) or space for additional equipment cost more.
- **Mounting Type:** Wall-mounted cabinets are generally cheaper than floor-standing units.
- **Security Features:** Lockable doors, tempered glass, and tamper-resistant designs increase price.
- **Ventilation and Cooling:** Cabinets with built-in fans or airflow management are mo...
