

Price and Introduction of Cable Trays

AI Overview

Cable trays are structured systems for supporting and organizing electrical, data, and communication cables, with prices ranging from \$2 to \$25 per meter depending on material, type, and specifications.

Introduction to Cable Trays

A cable tray is a rigid structural system designed to support and route cables efficiently. It consists of straight sections, elbows, tees, crosses, brackets, and hangers, providing a secure pathway for power, data, and control cables while ensuring proper ventilation and heat dissipation. Cable trays are widely used in industrial facilities, commercial buildings, data centers, and infrastructure projects.
