

Price list for Azerbaijan wire mesh cable trays

AI Overview

The price of wire mesh cable trays in Azerbaijan varies depending on size, material, and supplier, typically ranging from \$15 to \$50 per meter for standard industrial-grade trays.

Overview

Wire mesh cable trays in Azerbaijan are widely used for industrial, commercial, and construction applications due to their durability, ventilation, and flexibility in routing cables. They are manufactured from sturdy metal wires, often steel or galvanized steel, and are available in various sizes, shapes, and configurations to meet different load and installation requirements.

Pricing Factors

The cost of mesh cable trays depends on several factors:

- **Material:** Galvanized steel or stainless steel trays are more expensive than standard steel due to corrosion resistance and longevity.
- **Dimensions:** Width, height, and length of the tray affect the price; larger trays or custom sizes cost more.
- **Load Capacity:** Trays designed for heavy-duty applications are priced higher.
- **Supplier and Brand:** Local manufacturers like Jeetmull Jaichandlall (P) Ltd. offer competitive pricing, while imported trays may be more expensive
