

Price of Multi-Port Fiber Optic Connectors

AI Overview

Fiber optic multi-port connectors, such as MTP/MPO, typically range from \$20 to \$150 per connector depending on fiber count, type, and quality.

Overview of Multi-Port Connectors

MTP/MPO connectors are high-density, low-loss multi-fiber connectors used in data centers, SAN networks, and LANs. They can accommodate up to 144 fibers and are available in multimode (PC = 0°) and singlemode (APC = 8°) versions to achieve high return loss and minimal insertion loss. Common configurations include MTP12 (12 fibers) and MTP24 (24 fibers), with premium versions offering insertion loss as low as 0.35 dB. These connectors are often used with trunk cables or fanout cables to connect to LC, SC, or other connector types.

Price Range

- Standard MTP/MPO connectors: \$20-\$50 per connector for 12-24 fiber multimode versions.
- Premium or low-loss versions: \$60-\$150 per connector, especially for singlemode APC types or high-performance Elite versions.
- Bulk orders or pre-terminated trunk cables: Prices vary depending on fiber count, length, and assembly type, often offering discounts for larger quantities.
