

Price of Repairing Cable Tray Sleeves

AI Overview

Repairing cable tray sleeves typically costs between \$10 and \$100 per sleeve, depending on type, material, and installation complexity.

Cost Factors

- Type of Sleeve
 - Heat-shrink sleeves: These are common for cable sheath repair and provide a watertight seal. Kits often include adhesive-lined sleeves and metal clips for closure ().
 - Cold-shrink or elastomeric sleeves: These are self-sealing and flexible, suitable for high-moisture or dynamic environments ().
- Material
 - Polyolefin, silicone, PVC, or composite materials affect durability and price. Heat-resistant or UV-resistant materials cost more.
 - Halogen-free and corrosion-resistant sleeves are typically higher priced due to enhanced safety and longevity ().
- Cable Size and Sleeve Dimensions
 - Larger diameter cables require bigger sleeves, increasing material costs.
 - Irregular or multi-core cables may need custom or flexible sleeves, which are more expensive ().
- Installation Complexity
 - Simple wraparound sleeves can be installed quickly with a heat torch, while complex repairs may require skilled labor, increasing total cost ()....
