

Price of electrical box sockets

AI Overview

Electrical boxes with sockets typically range from \$5 to \$150 or more, depending on type, material, and features.

Price Overview

- Basic indoor socket boxes for residential use, usually plastic with 1-2 outlets, cost around \$5-\$20 on platforms like Amazon and AliExpress .
- Surface-mounted or pre-wired boxes with integrated Schuko sockets, earthing, and screwless connections are slightly higher, typically \$15-\$40 .
- Industrial or outdoor enclosures made from durable materials like polycarbonate, steel, or SMC, with IP44-IP68 protection, can range from \$50-\$150+, depending on customization, number of sockets, and additional features like circuit breakers or modular design .

Factors Affecting Price

- Material: Plastic boxes are cheaper, while metal or weather-resistant enclosures cost more.
- Number of sockets: More outlets increase the price.
- Protection rating: Outdoor or IP-rated boxes for moisture and dust resistance are more expensive.
- Pre-wired vs empty: Pre-wired boxes with internal conductors are costlier than empty enclosures.
- Brand and supplier: Established brands or specialized industrial suppliers may charge a premium for quality and compliance with standards like DIN EN 61439
