

Price quote for a 20kW data center interconnect battery cabinet

AI Overview

The cost of a 20kW data center battery cabinet typically ranges from \$15,000 to \$50,000, depending on technology, features, and installation requirements.

Pricing Overview

- **Lithium-Ion Cabinets:** High-density lithium-ion battery cabinets, such as the Vertiv EnergyCore Li5/Li7, offer compact, high-performance energy storage with advanced BMS, predictive health monitoring, and UL 9540A safety certification. A fully loaded 20kW cabinet can cost in the \$25,000–\$50,000 range, depending on runtime, configuration, and shipping .
- **APC InfraStruXure ISX20K20F:** This modular battery cabinet integrates power, cooling, and management systems, designed for scalable data center applications. Pricing is typically in the \$20,000–\$40,000 range, with options for leasing for businesses .
- **Outdoor or Custom Cabinets:** For outdoor or specialized enclosures, such as Fivepower energy storage systems, costs vary based on protection class, thermal management, and integrated control systems. These can be comparable to indoor lithium-ion cabinets but may include additional installation and environmental protection costs .
- **Market Trends:** According to recent BESS market data, 20kW energy storage systems in 2024–2025 averaged \$148/kWh, translating to roughly \$15,000–\$25,000 for a 20kW system, though high-end data center-grade cabinets with advanced features can exceed this range
