

Procurement of High-Quality Fiber Optic Distribution Frames

Overview

Get high quality odf fiber optic from Grandway!Get high quality odf fiber optic from Grandway!Optical distribution frame (ODF) is a frame used to provide space for fiber pigtails and fiber cable connection between fiber optic equipment, which can integrate fiber splice tray, fiber optic adapters & connectors to fix on a fiber optic cabinet. Made from high-quality steel and treated. HIGH DENSITY FLOOR STANDING FI. This NORDEN Fiber optic distribution cabinet. ODF fiber optic distribution frame, also known as fiber optic distribution cabinet, is a distribution equipment used for terminating, protecting, connecting, and managing optical cables and fibers in fiber optic communication networks. Pre-terminated ODFs with cables are pre-installed with connectors and cable for quick and easy installation. Products are designed by our professional R&D team to meet the customized needs of customers. Complete compatibility in footprint and route paths between the frames allow you to pick and choose the FxHD or FxDS for any application environment with future migration built-in.
