

Russian SN connectors are resistant to high temperatures

Overview

Its resistance to saltwater, extreme temperatures, and mechanical abrasion makes it ideal for connectors used in naval vessels, armored vehicles, and outdoor installations. The 230V silicon nitride igniters heat up to 1,000 °C in about two seconds. Once they were formerly made-to-order, they are now available off the shelf. Kyoto/London, 24th October 2023. Kyocera launches a new standard line of 230V silicon nitride (SN) igniters for industrial or residential gas. Hitech Russian Series are of threaded - coupled connector designed to meet the operating requirements of Indian Defense Standard, Joint Services Specifications JSS 50860, approved by Electronics Components Standardization Organization (LCSO). Hitech Russian Series are used in Defense Military. and scientific to use. The cable plug and panel socket are threaded connection. The panel socket has a glass sintered sealed socket (M) and a glass sintered sealed bulkhead socket (C), which can simultaneously meet the use requirements in special environments such as vacuum, sealing, and high. Connector is designed for work in electric circuits of direct and alternate current with frequency up to 3 MHz and voltage up to 700 V.
