

Senegal Fireproof Cable Tray Price List

AI Overview

Galvanized fireproof cable trays typically range from \$10 to \$50 per meter, depending on size, load capacity, and fireproof rating, though local Senegalese prices may vary.

Overview

Galvanized fireproof cable trays are designed for durable and safe cable management, offering resistance to fire, corrosion, and environmental factors . They are widely used in industrial, commercial, and infrastructure projects, including power plants, hospitals, and high-rise buildings . The trays are often made from hot-dip galvanized steel to prevent rust and maintain structural integrity over time.

Price Considerations

- **Material and Coating:** Hot-dip galvanized steel or powder-coated trays are more expensive than standard steel trays.
- **Fireproof Rating:** Trays tested to standards like DIN 4102-12 or equivalent fire resistance certifications may cost more due to rigorous testing .
- **Size and Load Capacity:** Wider trays or those designed for heavy cable loads are priced higher.
- **Supplier and Shipping:** Importing to Senegal may add shipping, customs, and VAT costs, affecting the final price. On platforms like Alibaba, galvanized fireproof cable trays are listed starting around \$10-\$50 per meter, depending on specifications . For high-quality European brands like Cablofil, prices may be higher due to compliance with stringent fire safety standards
