

Slovakian 635nm laser diode reference price

AI Overview

The reference price for a 635nm laser diode in Slovakia starts around €20–€50 for low-power modules, with industrial or higher-power units costing €50–€150 or more.

Pricing Overview

For industrial laser modules like the Diode Laser Concepts 511322-0036 (635nm, 0.75W, 24VDC), the price on Mouser Slovakia is available directly on their website, typically in the €50–€150 range depending on quantity and specifications. For low-power alignment or laboratory diodes (1–5mW), European suppliers such as Edmund Optics list prices around €20–€40 for compact modules with integrated drive electronics and collimating optics. These are suitable for alignment, measurement, or educational applications. Online marketplaces like eBay also offer 635nm laser diodes, often at competitive prices starting from €15–€30, though shipping and reliability may vary.

Factors Affecting Price

- Output power: Higher mW ratings increase cost.
- Module type: Industrial modules with integrated electronics and optics are more expensive than bare diodes.
- Supplier and quantity: Bulk orders or local distributors may offer discounts.
- Accessories: Mounting brackets, power supplies, and safety features can add to the total cost....
