

# Small Model Indoor Distribution Box

## AI Overview

Indoor small distribution boxes are compact, modular enclosures designed for residential, commercial, and technical installations, offering flexibility, safety, and ease of installation.

### Key Models and Features

1. Spelsberg AK Compact Series The AK Compact series is designed for standard indoor installations where space is limited, such as workshops, technical rooms, or residential units. Models range from 3 to 36 modules, with protection up to IP65 and impact resistance IK08. Features include halogen-free design, tool-free cable insertion, integrated PE-/N terminals, and removable base carriers for fast installation. Both 2-row and 3-row surface-mounted options are available, making it suitable for small to medium power distribution needs . 2. Eaton xComfort KLV Series Eaton's xComfort KLV enclosures are suitable for flush or hollow-wall mounting in residential and small commercial applications. They comply with IEC/EN 62208, IEC/EN 60670-24, and IEC/EN 61439-3 standards. The series offers 1- to 5-row cabinets, including multimedia and hybrid enclosures. Users can choose pre-wired final distribution boards or empty enclosures for custom configurations. Modular design allows flexible assembly with Eaton's switching and protection devices, ensuring safe and efficient energy distribution . 3. DISTRO-DIRECT Type 10 and 11 Series These small distribution boxes provide modular options for various input/output combinations. They support compact power distribution with or without protective breakers and include features like transparent shrink sleeving for labeling. They are suitable for laboratory, workshop, or small commercial setups, offering flexibility and direct online purchase . 4. Wieland Distribution Boxes Wieland offers...
