

# Southern European Cable Distribution Box

OEM/ODM  
CUSTOMIZATION AVAILABLE

## AI Overview

A Southern European cable distribution box is a compact, fully insulated power distribution unit designed for safe, organized, and efficient cable management in medium- to high-voltage networks.

### Overview

European-style cable distribution boxes are widely used in power distribution networks for both urban and industrial applications. They are designed to handle three-core cables without requiring long-span crossovers, ensuring a neat and organized cable layout. These boxes typically comply with the DIN47636 standard for cable glands and connections, and they often feature a bolt-on connection type rated at 630A for reliable electrical performance .

### Key Features

- **Voltage Ratings:** Commonly available for 12kV, 24kV, and 35kV systems, suitable for medium- and high-voltage distribution .
- **Insulation and Safety:** Fully insulated and hermetically sealed, providing dustproof, fireproof, and corrosion-resistant protection. No minimum insulation distance is required, ensuring 100% personal safety during operation .
- **Design:** Compact footprint with double-sided or bidirectional doors, clear cable arrangement, and cross-free wiring for three-core cables. Some models include busbar connections and options for fault indicators, surge arresters, or lightning pro...
