

Spectrometer Calibration in Indonesia

AI Overview

Accredited spectrometer calibration in Indonesia is available through multiple KAN-certified laboratories, including Caltesys, Indotech, and PT Global Instrument Services, ensuring compliance with ISO/IEC 17025 standards.

Key Providers

Caltesys is a well-established calibration laboratory with locations in Jakarta, Surabaya, and Semarang. They offer calibration for a wide range of analytical instruments, including UV-Vis spectrophotometers, pH meters, viscometers, and conductivity meters. Their services are accredited by the National Accreditation Committee (KAN) and comply with ISO/IEC 17025, ensuring internationally recognized calibration certificates. Indotech provides laboratory equipment and KAN-accredited calibration services for spectrometers and other analytical instruments. They support single-beam, double-beam, and ratio-beam spectrophotometers, offering both in-lab and on-site calibration services in accordance with SNI ISO/IEC 17025:2017. PT Global Instrument Services (Lab GIS) offers a one-stop solution for calibration, including spectrometers, with both on-site and in-lab services. Their accreditation (LK-396-IDN) from KAN guarantees precise and reliable calibration, covering a broad range of instruments such as photometers, UV-Vis spectrophotometers, and other analytical devices.
