

Subframe type fiber optic distribution frame manufacturer

AI Overview

Leading manufacturers of subframe-type fiber optic distribution frames include TTI Fiber, Norden Communication, OTRANS, FiberCheap, and Lightera, offering high-density, modular, and customizable ODF solutions.

Key Manufacturers and Offerings

TTI Fiber is a professional fiber optic manufacturer based in Shenzhen, China, providing floor-standing fiber distribution frames (ODFs) with 72–720 ports. They offer full OEM/ODM services, factory-direct pricing, and engineering support for large-scale fiber management projects . Norden Communication supplies high-capacity, high-density fiber distribution frames suitable for optical access networks. Their ODFs feature expandable modular designs, integrated cable management, and flexible cabling access, making them ideal for central offices and high-demand environments . OTRANS specializes in fiber distribution boxes and ODF cabinets for indoor and outdoor FTTX deployments. Their products range from 1-24 core FDB boxes and are IP65 rated, durable, and easy to install, suitable for both small and medium-scale networks . FiberCheap offers a variety of optical distribution frames that integrate fiber splice trays, adapters, and connectors. Their ODFs provide protection for fiber connections and come in different shapes and specifications to meet diverse network requirements . Lightera (formerly Furukawa Electric Fiber and Cable, OFS, and Furukawa Electric LatAm) provides comprehensive fiber optic and connectivity solutions for high-density networks. Their ODFs are designed for efficiency, sustainability, and industrial-grade reliability, supporting corporate networks, data c...
