

Supplier of Recessed Fiber Optic Connectors

AI Overview

Leading manufacturers of recessed fiber optic connectors include Amphenol Fiber Systems International (AFSI), US Conec, and CZT, offering solutions for harsh environments, data centers, and telecom applications.

Key Manufacturers

Amphenol Fiber Systems International (AFSI) specializes in harsh environment fiber optic cable assemblies and recessed connector solutions for military, aerospace, and industrial applications. Their product lines include TFOCA-II®, M83522, M29504, M28876, and THDM connectors, which are widely used in mission-critical systems such as radars, avionics, and next-generation sensors. AFSI provides full engineering support, custom interconnect design, and is certified to AS9100, ISO 9001, and MIL-STD-790 standards. US Conec designs and manufactures precision optical interconnect ferrules and connector packages, including recessed fiber optic connectors. Their solutions are optimized for low-loss, high-reliability fiber optic links and are suitable for both standard and custom applications. US Conec emphasizes sub-micron precision, field serviceable designs, and compliance with industry standards, making them a strong choice for high-performance optical networks. CZT produces precision fiber optic connectors and SFP/SFP+ cage assemblies for data center, telecom, and FTTH deployments. Their product range includes LC, SC, ST, FC, and MPO/MTP connectors, available in single-mode and multimode configurations. CZT connectors are UL, CE, and RoHS certified, and the company offers ISO 9001-certified manufacturing with low minimum order quantities for prototyping an...
