

Supply price of automatic distribution boxes

AI Overview

The supply price of automatic distribution boxes typically ranges from \$50 to \$1,500 per unit, depending on capacity, features, and customization options.

Typical Price Ranges

Automatic distribution boxes vary widely in price based on specifications and intended applications. Standard residential units generally cost between \$50 and \$200, while commercial or industrial three-phase systems can range from \$500 to \$1,500 or more per unit. Prices are influenced by factors such as voltage rating, amperage capacity, number of circuits, material construction, and integrated safety features.

Factors Affecting Supply Price

- **Capacity and Type:** Larger boxes with higher amperage or multiple circuits cost more. Industrial-grade units with heavy-duty components are priced higher than residential models.
- **Material and Durability:** Weather-resistant or IP-rated enclosures for outdoor use carry a premium over indoor-rated units.
- **Technological Features:** Smart monitoring, remote control, and digital display systems increase the cost but provide long-term operational efficiency.
- **Customization and OEM Options:** Custom layouts, busbar modifications, and branding can significantly affect pricing, especially for bulk orders.
- **Market and Supply Trends:** Prices fluctuate based on global supply chain conditions...
