

Swedish Fiber Optic Switch Factory

AI Overview

Fibersystem AB and EKS Fiber Optic Systems are leading Swedish manufacturers of fiber optic switches, offering high-performance, secure, and protocol-independent solutions.

Fibersystem AB

Fibersystem AB, based in Sweden, specializes in fiber optic switches and high-security network solutions. Their products include models like the 1x4 2-channel fiber optical switch, which provides a purely optical path, is protocol-independent, and ensures secure and reliable data transmission, making it suitable for high-bandwidth networks and evolving media applications. Fibersystem also develops military-grade secure devices such as TEMPEST-certified tablets and thin clients, highlighting their expertise in secure optical communications. Their switches are designed for reliable, high-speed optical connectivity in demanding environments.

EKS Fiber Optic Systems

EKS Fiber Optic Systems is another prominent Swedish company specializing in fiber optic technology. They offer a wide range of products for transmitting Ethernet, RS232, RS422, RS485, MODBUS, CAN, and Profibus signals over fiber optics. EKS provides flexible connection options including SC, ST, LC, and E2000 connectors, as well as modules for both analog and digital signal transmission. Their solutions include splitter boxes for single-mode and multi-mode fiber, ensuring organized and efficient distribution of fiber optic signals within networks. EKS is recognized for its reliability and expertise in high-speed fiber communications....
