

Technical Support for 1m Event Blind Zone of Optical Communication Tester for Intelligent Buildings

Overview

6 inch color touch screen, button/touch dual operation; Internal integration of eight major functional modules, multi-functional integration to help customers effectively solve the field test and maintenance; The highest 45 dB dynamic range, can penetrate optical splitter. Adopt 5. 5-inch display offers an event blind zone of 1 m and operates with locator This product is already in your quote request list. The View300 - Lightweight, compact OTDR for fast, accurate installation and maintenance of fiber optic networks.,LTD * Novel and beautiful appearance and structure design; * Special protection design of shell, durable and able to work under bad environment; * Simplest operating interface, shortcut key operation, easy to use; * Dual operation of touch screen and keys; *. Dimension's versatile OTDR fiber optic tester helps field technicians reliably and cost-effectively install, turn on, troubleshoot, and monitor any optical network architecture. The product adopts the architecture of test module + handheld universal test platform, integrating OTDR, visual fault. Note: 1Test temperature is 25°C+2°C, maximum pulse width, the average time is more than 3 minutes.
