

# Thickness of Andorra Metal Cable Trays

## Overview

0mm thickness to maximum width of 300mm. Published load safety factor is 1. Splice plates not supplied. All tests per NEMA VE-1. SFSP cable trays and accessories from SFSP are manufactured from steel sheets in accordance with BS EN 10130/BS EN 10131/ BS EN. Ignoring thickness is one of the most common causes of tray deflection and field failures. The mechanical and electrical characteristics, tests, certifications, overall quality management, recommendations mentioned in this technical guide only apply to our own cable management ranges and cannot under any circumstances be transposed to similar or. We offer a wide range of cable tray systems to support tubing, electrical cables and instrumentation. Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP) composites to suit any project type both offshore and onshore. We also use aluminium alloys (Aluminum Association designation) to manufacture cable tray. The alloys are selected for their mechanical properties, such as strength and hardness, as well as for their resistance to corrosion, particularly stress corrosion, cracking, and pitting co anufactured using a. Unitray Systems Inc. Unitray is proud to be 100% Canadian owned and the following catalogue.
