

Tools used for splicing fiber optic cables

AI Overview

For splicing fiber optic cables, essential tools include fusion splicers, cleavers, and strippers, available from reputable suppliers like Specialized Products and Fiber Instrument Sales.

Recommended Tools for Fiber Optic Splicing

-

Fusion Splicers: These are essential for joining two fiber optic cables together by melting the fibers. They provide a strong and low-loss connection. Brands like Corning and Fujikura are well-known for their high-quality fusion splicers .

-

Fiber Cleavers: A cleaver is used to prepare the fiber ends for splicing by cutting them to a precise length and angle. This ensures a clean and effective splice. Look for cleavers from brands like Miller – Ripley and AFL .

-

Fiber Strippers: These tools are used to remove the protective coating from the fiber optic cables without damaging the fiber itself. They are crucial for preparing the fibers for splicing. Brands such as Jonard Tools and Light Brigade offer reliable options .

-

Splicing Kits: Many suppliers offer complete splicing kits that include all necessary tools for fiber optic splicing, such as cleavers, strippers, and protective sleeves. CommScope and Fiber Instrument Sales provide comprehensive kits for various spli...
