

What are some manufacturers of optical fiber cable granules

AI Overview

Leading manufacturers of optical fiber granules include Corning, Prysmian, Dekam-Fiber, Nexans, and FS, all of which produce high-purity silica preforms for fiber optic cables.

Key Manufacturers

Corning Incorporated (USA) Corning is a pioneer in optical fiber technology, producing high-purity glass fibers and preforms used in fiber optic cables. Their products include ultra-low-loss fibers and bend-insensitive designs, supporting high-speed data transmission for telecom and data centers. Corning emphasizes R&D and sustainable manufacturing, including the use of recycled silica in fiber production . **Prysmian Group (Italy)** Prysmian manufactures optical fibers and fiber optic cables for long-haul, submarine, and 5G networks. They produce high-quality silica preforms and granules for their fiber drawing processes, ensuring low attenuation and high tensile strength. Prysmian also focuses on eco-friendly materials and large-scale infrastructure projects . **Dekam-Fiber (China)** Dekam-Fiber specializes in a wide range of fiber optic cables, including armored and loose-tube designs. They produce the raw fiber materials (granules/preforms) necessary for high-capacity WDM channels and multi-core fibers. Their products are designed for affordability, scalability, and high crush resistance . **Nexans (France)** Nexans manufactures fire-resistant and eco-designed fiber optic cables. They produce high-purity silica granules for fiber drawing, supporting data center and urban network applications. Nexans emphasizes circular economy practices, recycling materials, and smart cable technologies . **FS (USA/Glo...**
