

What does GR optical cable represent

Overview

Let's take a look at the meanings of the fiber optic cable models. I: Classification code and its meaning are: GY—room (field) optical cable for communication; GR—soft optical cable for communication; GJ - optical cable in communication room (office); GS - optical cable in communication equipment;. In fiber communications, the color of the fiber is not only an eyes-only indicator—it is actually used for determining the quantity, type of the fiber, and use of the fiber. 652 (Tables A, B, C & D), IEC Specification 60793-2-50 Type B1. 3, TIA/EIA 492-CAAB and Telcordia Generic Requirements GR-20-CORE. 5 This non-zero dispersion-shifted single-mode fiber utilized in the. 100 Mb/s Fast Ethernet using 4-pair Category 3 cable 100 Mb/s Fast Ethernet using 2-pair Category 5 cable 100Base-T Ethernet 100 Mb/s LAN using Demand Priority Protocol originally developed by Hewlett Packard and AT&T for Category 3 cable An implementation of the Institute of Electrical and. Characteristics of a Single Mode Optical Fibre and Cable, Table 4 G.
