

Where can I find manufacturers of fireproof cable trays

AI Overview

Some leading manufacturers of fireproof cable trays include Apex Tray, Flamro, Meka Pro, Cablofil, and fiberglass-reinforced tray producers like ALOIS Composites, Oglaend System Group, and Enduro Composites.

Key Manufacturers and Their Offerings

Apex Tray provides fire-rated cable trays that comply with national and international fire safety standards, offering solutions for 30, 60, 90, and 120-minute fire ratings. They emphasize certified products, installation guides, and technical support to ensure proper fire-resistant installations. Flamro specializes in fire protection coatings and tapes for cables and cable trays, such as FLAMMOTECT-A and DG-CR 0.7, which protect cables in high-rise buildings, industrial facilities, offshore platforms, and sensitive areas like hospitals and power stations. Meka Pro manufactures fire-resistant cable support systems tested according to EN 1363-1 standards. Their products ensure that critical electrical equipment continues operating during a fire and that cable management systems remain structurally sound without producing toxic gases. Cablofil offers fire-resistant cable trays, including basket tray systems compatible with Prysmian FP and Draka Firetuf cables. Their products are tested to the German DIN 4102-12 standard for fire resistance, suitable for construction, power, oil, gas, petrochemical, rail, and utilities industries. Fiberglass-Reinforced Cable Tray Manufacturers include:

- ALOIS Composites: European producer of pultruded fiberglass trays for corrosive...
