

Which outdoor fiber optic router is the best

AI Overview

For outdoor fiber optic setups, routers with Wi-Fi 6/7, multi-gig Ethernet ports, and robust coverage like the NETGEAR Nighthawk RS700S or ASUS RT-BE86U are top choices.

Key Considerations for Outdoor Fiber Routers

When selecting a router for outdoor fiber internet, consider the following:

- **Wi-Fi Standard:** Wi-Fi 6 (802.11ax) or Wi-Fi 7 (802.11be) ensures high-speed performance and low latency for multiple devices .
- **Ethernet Ports:** Multi-gig ports (2.5G or 10G) allow full utilization of fiber speeds and support wired connections for outdoor access points .
- **Coverage:** Look for routers with high antenna count and strong signal range to cover outdoor areas effectively .
- **Durability:** While most routers are indoor-rated, placing them in weatherproof enclosures can protect them from outdoor elements.
- **Device Capacity:** Ensure the router can handle multiple devices simultaneously, especially for smart home or outdoor entertainment setups .

Top Router Recommendations

- NETGEAR Nighthawk RS700S (Wi-Fi 7)
- Speeds up to 9.2 Gbps, tri-band design
- Supports up to 200 devices and 3,500 sq. ft. coverage...
