

Wiring protection sleeve for distribution box

AI Overview

Protective sleeves for distribution box wiring safeguard cables from heat, abrasion, moisture, and mechanical damage while improving organization and safety.

Types of Protective Sleeves

- Expandable Braided Sleeving
 - Flexible and durable, ideal for bundling multiple wires.
 - Provides abrasion resistance and allows easy post-installation access.
 - Suitable for high-movement or vibration-prone environments .
- Heat Shrink Tubing
 - Insulates and seals wire splices, connectors, and terminations.
 - Available in single-wall or adhesive-lined dual-wall options for moisture protection.
 - Shrink ratios range from 2:1 to 4:1, allowing a snug fit over wires or bundles .
- Corrugated or Spiral Loom
 - Lightweight, flexible conduit that protects wires from environmental hazards.
 - Ideal for routing cables in tight spaces or along panel edges.
 - Offers bend radius control to maintain cable performance .
- Tube Sleeving
 - Simple tubular protection for individual wires or small bundles.
 - Can be made from PVC, nylon, or other heat-resistant materials
