

XRM18-position distribution box dimensions

AI Overview

The XRM18-position distribution box typically has dimensions in the range of standard 18-way distribution boxes, with approximate width, height, and depth suitable for flush or surface mounting.

General Dimensions

While the exact XRM18 dimensions are not explicitly listed in the available sources, typical 18-way distribution boxes (plastic, built-in mounting) have approximate dimensions as follows:

- Width: 450–500 mm
 - Height: 300–350 mm
 - Depth: 100–150 mm
- These dimensions are consistent with standard 18-way boxes used for residential or light commercial installations, allowing for DIN rail mounting and accommodation of 18 circuit breakers or modular devices .

Mounting and Features

- Mounting: Built-in (flush) or surface mounting options are common, with pre-drilled holes for secure attachment .
- Cable Entry: Multiple knockouts or gland entries for standard cable sizes, typically supporting 2–10 mm² conductors .
- Protection: Boxes are often rated IP33 or higher, providing protection against dust...
