

Xiaomi Router 4a Fiber Optic Access

AI Overview

The Xiaomi 4A Fiber Optic Router is a dual-band gigabit router offering speeds up to 1167 Mbps, wide coverage, and easy management via the Mi Wi-Fi app.

Key Specifications and Performance

The Xiaomi 4A Gigabit Edition features one gigabit WAN port and two gigabit LAN ports, supporting fiber-optic broadband speeds above 100 Mbps, making it suitable for high-speed internet connections. It is powered by a dual-core quad-threaded CPU with a clock speed of up to 880 MHz, ensuring smooth data transmission and stable performance for multiple devices. The router supports dual-band Wi-Fi (2.4 GHz and 5 GHz) with combined speeds of up to 1167 Mbps, where the 2.4 GHz band provides better wall penetration and coverage, and the 5 GHz band offers higher speeds for HD streaming and online gaming.

Coverage and Antennas

Equipped with four external high-performance antennas, the router ensures robust and stable signal coverage throughout a home or office environment. The dual-band integration feature allows both bands to operate under a single Wi-Fi name, automatically selecting the optimal frequency for connected devices.

Security and Management

The Xiaomi 4A provides advanced security features, including WPA-PSK/WPA2-PSK encryption, parental controls, guest networks, and device management through the...
